From the Founder's Desk

The year 2025–26 has been an important year of strengthening our foundations while creating new possibilities for the future. Achieving ISO 9001:2015 certification marked a significant milestone in our journey towards becoming a stronger system- and process-driven organisation, with greater emphasis on quality, accountability and continuous improvement.

At the same time, we continued to explore an important question—what pathways can we create for neurodiverse young adults when open employment may not always be accessible or suited to their individual strengths? Through our social enterprise initiative, Blessings, 15 trainees earned a collective stipend of ₹1.42 lakh during the year, giving us confidence to further develop self-help businesses and alternative livelihood pathways.

In 2026–27, we aim to take this forward through an e-commerce platform currently under development, creating greater visibility, market access and opportunities for products made by our neurodiverse trainees.

Our vision also extends beyond livelihood to the larger question of adulthood and independent living. Our initial work with Community Living Foundation has begun towards developing a supported living model that considers meaningful engagement alongside physical, emotional, social and spiritual well-being.
For us, the journey ahead is about turning possibilities into sustainable pathways —towards livelihood, greater independence, meaningful participation and a fulfilling adult life.

Sumana Dutta
Founder Executive Director
Akshadhaa Foundation

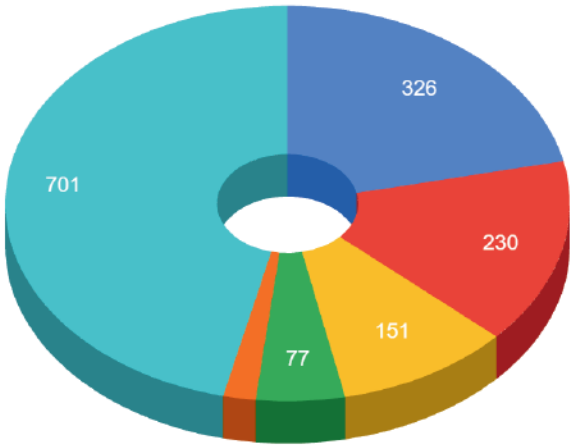

Our Vision

Akshadhaa Foundation is committed to providing children and young adults with neurodiverse conditions the opportunities and support they need to create better lives for themselves and their families. The Foundation strives to enable each individual to achieve maximum independence through safe, high-quality, and meaningful educational programs tailored to specific lifelong goals, complemented by therapeutic recreation and comprehensive support within a year-round barrier-free environment.

Our Misssion

At Akshadhaa we believe that every human being, including children has the right to contribute and make a positive influence on their surroundings. So, at Akshadhaa we work with children and young adults with diversified needs, enabling them to address their primary requirements, to be cognizant of their surroundings and depending on their capabilities, we help them acquire technical and vocational work skills which in turn will enable them to live a dignified and contented life.

SDG GOALS Aligned

Strengthening System:
Advancing Toward ISO 9001:2015 Certification

During the year, Akshadhaa Foundation undertook a significant organizational quality improvement initiative to align its processes with the internationally recognized ISO 9001:2015 Quality Management System standard. This framework emphasizes systematic planning, documentation, monitoring, and continuous improvement to ensure consistent and high-quality service delivery.

As part of this journey, the Foundation strengthened its standard operating procedures, documentation, internal reviews, and program monitoring across education, therapy, vocational training, community outreach, and administrative functions.

A major milestone was achieved on March 10, 2026, with the completion of the final external audit for ISO 9001:2015 certification, reflecting Akshadhaa's commitment to quality, accountability, and effective services for neurodiverse individuals and their families.

Indian School Award 2025: Recognition for Impactful Learning

On 6 September 2025, Akshadhaa Foundation was honoured at the Indian School Awards – 30th Edition in Bengaluru with the prestigious recognition of "School with Most Impactful Learning Methods." The award was received by Sumana Dutta on behalf of the organization.

The recognition affirms Akshadhaa's commitment to meaningful and inclusive education for neurodiverse learners through individualized teaching strategies, customized Teaching–Learning Materials (TLMs), and Individualized Education Plans (IEPs) that address each learner's unique strengths and needs.

This achievement reflects the collaborative efforts of students, families, educators, and therapists in creating engaging learning experiences and marks an important milestone in Akshadhaa's journey towards meaningful growth and success for every learner.

National Recognition for the Inclusive Carnival

Akshadhaa Foundation's Inclusive Carnival received national recognition when it was showcased at the Odisha Neurodiversity Summit 2025, an important platform dedicated to advancing awareness, dialogue, and action around neurodiversity and inclusion. The summit, powered by Tata Power, brought together educators, professionals, advocates, and organizations from across India.

The presentation of the Inclusive Carnival highlighted Akshadhaa's innovative advocacy model, which uses experiential learning to help participants understand the lived experiences of individuals with disabilities and neurodiverse conditions. Through interactive activities and immersive simulations, the model fosters empathy, challenges misconceptions, and encourages the creation of more inclusive environments.The initiative also provides participants with an opportunity to reflect on everyday barriers and the importance of accessibility, inclusion, and respectful engagement.

Being invited to present this initiative at a national forum reflects growing recognition of Akshadhaa Foundation's leadership in disability awareness and inclusive advocacy. It also underscores the broader relevance and scalability of the Inclusive Carnival as a powerful tool for promoting understanding, acceptance, and meaningful social change across diverse communities.

Recognition Through Employment and Industry Partnerships

The successful placement of three trainees as Station Support Associates at Amazon and the extension of internship opportunities at ReachH Integrated Pharma reflect growing confidence among employers in the capabilities of neurodiverse individuals trained at Akshadhaa Foundation.

These achievements demonstrate the effectiveness of the Foundation's integrated approach to vocational training, job readiness, and workplace inclusion, and serve as meaningful endorsements from industry partners.

ZEST 2026:

Celebrating Ability, Participation, & the Spirit of Togetherness

One of the most memorable highlights of the year was ZEST 2026, the Annual Sports Meet of Akshadhaa Foundation. More than a sporting event, ZEST was a vibrant celebration of participation, perseverance, and the unifying power of sports.

The event brought together approximately 80 students, 120 parents and family members, and 50 staff members, creating an atmosphere filled with enthusiasm, encouragement, and shared joy. Students participated in a wide range of inclusive sports and physical activities designed to accommodate diverse abilities and promote confidence, coordination, and teamwork.At Akshadhaa, sports are viewed as a powerful medium for holistic development. They help strengthen motor skills, improve concentration, foster discipline, and build self-esteem. Equally important, sports create opportunities for every individual to experience success, regardless of their abilities, and to be celebrated for their effort and determination.

ZEST 2026 beautifully demonstrated how sports bring people together. Students, parents, teachers, and therapists cheered side by side, united by a common spirit of encouragement and belonging. The event reinforced the belief that participation matters as much as achievement, and that every milestone—big or small—deserves recognition.By celebrating movement, teamwork, and resilience, ZEST 2026 reflected Akshadhaa Foundation's commitment to nurturing not only academic and vocational growth, but also physical well-being, social connection, and the joy of being part of an inclusive community.

NIOS Accreditation:

Expanding Recognized Learning Pathways

As an accredited partner of the National Institute of Open Schooling, Akshadhaa Foundation continued to offer nationally recognized vocational and educational certification programs for neurodiverse learners.

NIOS
The National Institute of Open Schooling

Courses in areas such as Data Entry, Bakery and Confectionery, and Early Childhood Care and Education provide structured pathways to certification, skill development, and employment readiness. This accreditation enhances the credibility of the Foundation's vocational initiatives and ensures that students gain qualifications that are widely recognized across India.

National Institute CERTIFIED of Open Schooling

Comprehensive Education & Therapeutic Services

Akshadhaa Foundation Special School and Rehabilitation Centre

At the heart of Akshadhaa Foundation is its Special School and integrated therapeutic services, which provide individualized support to children and young adults with autism, intellectual disabilities, and other developmental conditions. The program is designed to nurture each learner's unique strengths while addressing areas such as communication, academics, behavior regulation, social interaction, self-help, and emotional development.

The Foundation adopts a highly personalized approach through Individualized Education Plans (IEPs), customized Teaching–Learning Materials (TLMs), and multidisciplinary interventions that combine educational and therapeutic goals. Students benefit from a structured environment that promotes meaningful participation and steady progress.

Beyond academics and therapy, learners participate in sports, creative activities, celebrations, and community-based experiences that build confidence, independence, and social skills. This holistic approach supports every student in achieving greater autonomy and an improved quality of life.

Vocational Training and Life Skills Development

Akshadhaa Foundation Vocational Training and NIOS center

Akshadhaa Foundation's Vocational Training Unit provides adolescents and young adults with neurodiverse conditions a structured pathway to develop practical skills, functional independence, and meaningful livelihood opportunities. The program combines vocational training, life skills development, and functional academics to prepare learners for greater participation in daily life and future employment.

Students engage in hands-on activities such as paper production, envelope making, candle making, jewellery crafting, and chocolate making, developing concentration, fine motor coordination, task sequencing, and positive work habits. Through NIOS, learners also pursue nationally recognized vocational courses including Bakery and Confectionery, Data Entry Operations, and Early Childhood Care and Education.

The program also focuses on communication, money management, travel readiness, personal organization, and other essential life skills. Community-based instruction, exposure visits, internships, social events, and sports provide opportunities to apply these skills in real-world settings, building confidence, independence, and readiness for adulthood.

Blessings : Innovation, Enterprise, and Inclusive Livelihoods

During 2025–26, the Blessings Social Initiative continued to strengthen its inclusive social enterprise model, transforming skill development into meaningful livelihood opportunities for neurodiverse individuals. The initiative expanded its product range to include handcrafted paper products, candles, bakery items, customised sublimation products, artificial jewellery, green gifting solutions, and festive collections.

Dedicated production and training units in bakery, candle making, paper products, and sublimation provided students with hands-on learning linked to real-time customer orders and income generation.

A key focus was strengthening innovation and R&D, leading to improved packaging, eco-friendly gifting concepts, themed collections, live customisation, and enhanced customer engagement.The initiative also expanded its corporate gifting and market outreach through bulk orders, campus stalls, exhibitions, and collaborations with organisations such as ANZ, Bosch, Cisco, Deutsche Bank, and Goldman Sachs. Through these efforts, Blessings generated ₹8,96,501 in revenue during the year, demonstrating its growing sustainability and impact.

Livelihood Generation, Market Engagement, and Student Empowerment

Creating meaningful livelihood opportunities remained one of the strongest pillars of the Blessings Social Initiative during 2025–26. A total stipend of ₹1,42,200 was distributed among 15 trainees through a structured, transparent model based on production hours, engagement, skill participation, and contributions to product development.

Students actively participated in creating customised diaries, calendars, wax tablets, chocolates, candles, badges, mugs, green gifting products, and festive hampers, gaining practical exposure to production, quality control, packaging, customer interaction, and workplace responsibilities. The initiative strengthened its visibility through corporate and campus stalls, live demonstrations, and branding activities, including the launch of its LinkedIn presence and the successful “Normal is Overrated” Akshadhaa 2026 Calendar Project, which sold out all 400 copies within one month.

These experiences helped trainees build confidence, social and vocational skills, and workplace readiness, while contributing to an inclusive enterprise environment that promotes dignity, independence, and long-term livelihood development.

Internship, Training, and Professional Development Initiatives

During the year, Akshadhaa Foundation provided structured internships and professional learning opportunities to 77 young professionals and university students from 12 different institutions, including Banjara Academy, BITS Design School, Christ Deemed to be University, CMR University, Columbia College of Physiotherapy, Indian Institute of Psychology and Research, Kristu Jayanti deemed to be University, Maharani's Cluster University, Marian College Kuttikkanam, New Pragathi College of Physiotherapy, St. Vincent Pallotti College, Symbiosis School for Liberal Arts.

The internship program created meaningful opportunities for students from diverse disciplines to work directly with children and young adults with neurodevelopmental conditions within educational, therapeutic, vocational, and community-based settings. Participants were introduced to key concepts related to neurodiversity, inclusion, child development, behaviour understanding, therapeutic support, and individualised intervention approaches.

Alongside hands-on exposure, interns and young professionals received structured training, mentoring, observation opportunities, and guided practical experiences that supported both their academic learning and professional growth. Through active participation in classroom activities, therapy sessions, assessments, vocational units, community outreach programs, and inclusive events, participants developed greater sensitivity, confidence, and practical understanding of inclusive practices.

These initiatives reflect Akshadhaa Foundation's commitment to nurturing a skilled, empathetic, and socially responsible workforce while strengthening the future ecosystem of professionals working in the fields of disability, inclusion, education, and rehabilitation

SAP Code Unnati:
Digital Inclusion

The SAP Code Unnati Program at Akshadhaa Foundation supports neurodiverse youth and young adults in developing digital, vocational, employability, and life skills for greater independence and livelihood opportunities. During 2025–26, the program reached 126 candidates and 82 parents and caregivers through structured training in digital literacy, Microsoft Office, advanced Excel, software testing, coding, Canva, typing, NIOS-certified Data Entry, and other technology-enabled skills.

Learning was complemented by internships, workplace and corporate visits, job fairs, community exposure, sports, health camps, and awareness activities, enabling learners to apply their skills in practical settings and build confidence and workplace readiness.

The program also strengthened the support ecosystem through Training of Trainers, capacity-building sessions for professionals and interns, parent counselling, and caregiver training. A key achievement during the year was the transition of several trainees into internships and paid employment across sectors such as healthcare, technology, education, administration, and retail.

SUCCESS STORY

A Journey of Determination and Hope

Kiren, a person with Intellectual Disability and Learning Disability (LD), completed his 10th grade and joined Akshadhaa Foundation on January 10, 2024, where he underwent training until June 2025. During this period, he completed courses in Canva and SNAP programming.

Through structured training, he developed foundational digital and functional skills. Through holistic training in digital, life skills, communication, and job readiness, he developed strong competencies and confidence. At present, he is working at Avenue Parramatta, Australia, in a packaging role for 5 hours a day, 4 days a week. He started in December 2025 and is earning a stipend of 300 dollars (₹19,357.78).

Learning on Wheels: Education at the Doorstep

The Learning on Wheels – Chapter 3 Community Outreach Project supported by Primavera brought inclusive education and skill development services to children with special needs in school and community settings. In 2025, the project focused on four key components: Digital Literacy Training, Pre-Vocational Skill Development, Parent Capacity Building, and the development of the Life Skills Universal Tools Manual.

Implemented at Sunaad School for Hearing Impaired, the project reached 102 beneficiaries, including 30 children in Digital Literacy, 30 children in Pre-Vocational Skills, and 42 parents and caregivers. Children developed foundational computer skills, practical vocational competencies, fine motor coordination, concentration, task sequencing, and work habits through structured, hands-on activities.

Parent capacity-building sessions equipped caregivers with strategies to support learning, behaviour, and daily living skills at home. A key milestone was the development of the first edition of the Life Skills Universal Tools Manual, a structured resource to support educators in teaching functional life skills to neurodiverse learners.

The project was supported by baseline assessments, IEPs, customized teaching-learning materials, regular evaluations, and feedback from parents and teachers.

SUCCESS STORY

Umme Kulsum's Story

Umme Kulsum, a 16-year-old with hearing and locomotor difficulties, initially faced challenges with fine motor tasks, classroom activities, and social interaction. Through pre-vocational training in jewellery making and paper packet preparation, she received structured support to strengthen her coordination and confidence.

With consistent practice and encouragement, Umme developed better control, completed tasks more independently, and became more confident in interacting with trainers and peers. Her progress reflects her determination and the impact of supportive, skill-based training.

Equip the Special Million
Sarathy Inclusive Education Project

The ETSM Sarathy Inclusive Education Project – Chapter 4 is a comprehensive initiative funded by ANZ that aims to strengthen inclusive education and developmental support systems for children with special needs through a multi-layered approach involving direct intervention, family empowerment, professional capacity building, and community engagement.

During the year April 2025 to March 2026, the project was implemented across government schools, community institutions, and Akshadhaa Foundation's centre, with key collaborations established with the Block Education Office and the Women and Child Development Department to enhance outreach and sustainability.

The project provided structured services in life skills education, functional academics, speech therapy, physiotherapy, special education, and Enriched Early Childhood Stimulation (ECSC) to 105 children with special needs through individualized education plans and regular therapeutic interventions. In addition, 148 parents and caregivers received training and counselling on home-based strategies and behaviour management, 151 educators and professionals were equipped through 17 Train-the-Trainer sessions on inclusive teaching practices and individualized planning, and 28 ASHA and Anganwadi workers were trained in developmental milestones, early identification of delays, and referral pathways.

The project also reached 701 individuals through policy and advocacy initiatives, including awareness programs, inclusive carnivals, and experiential activities conducted in collaboration with universities, healthcare institutions, and community partners.

SUCCESS STORY

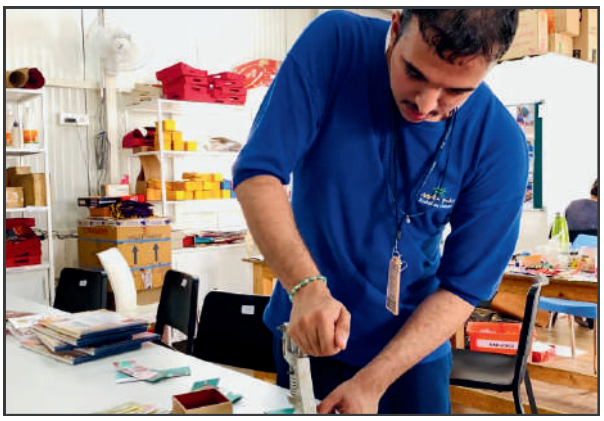

Anumesh, a 6th-grade student with visual impairment, joined the ETSM project with challenges in academics and confidence. In the beginning, he attended every session quietly, observing more than participating, but his consistent presence stood out. With encouragement, tailored support, and an inclusive learning environment, he gradually became more involved. Over time, he began engaging actively in learning, interacting with trainers, and even motivating his peers to join emerging as a quiet leader within the group.

Today, Anumesh's journey reflects resilience and meaningful progress. His confidence has grown, his academic participation has strengthened, and he continues to show dedication and leadership, demonstrating how the right support can empower students to thrive and succeed.

Project SANKALP:
Building Vocational Skills and Independence

Supported by Standard Brick, Project SANKALP focused on strengthening vocational competencies, functional independence, and work readiness among youth with special needs. The project provided structured, hands-on training in key vocational areas, including bakery, paper production, and retail skills, offering students opportunities to learn and practise practical tasks in an inclusive and supportive environment.

Through these training activities, students developed skills in task execution, following instructions, sequencing activities, fine motor coordination, and maintaining workplace routines. Retail training further introduced students to practical retail activities and basic work-related responsibilities. The programme aimed to build confidence, encourage greater independence, and prepare students for future vocational opportunities while promoting their participation in meaningful and productive activities.

Inclusive Carnival at Kristu Jayanti University: Unboxing Inclusion

On 23 February 2026, Akshadhaa Foundation conducted an Inclusive Carnival at Kristu Jayanti University, bringing together 357 students, faculty members, and professionals, with the support of 27 volunteers and 10 members of the Akshadhaa team.

Designed as an experiential awareness initiative, the Carnival created a unique platform that unboxed inclusion through first-hand engagement. Rather than learning about disability through presentations alone, participants engaged in interactive activities that enabled them to explore diverse perspectives in a meaningful and memorable way.

The event featured immersive zones focusing on neurodiversity, locomotor disability, speech and hearing impairment, and visual impairment. Through simulations and hands-on tasks, participants experienced everyday challenges related to communication, mobility, sensory processing, and accessibility. Guided by subject matter experts, these activities encouraged participants to move beyond observation toward genuine understanding and meaningful connection.A special highlight was the presentation of the First Disability Empathy Award 2026 to Kristu Jayanti University, recognising its commitment to promoting inclusion and fostering inclusive mindsets among students and educators.

Corporate Volunteering: Building Bridges Through Meaningful Engagement

Throughout 2025–26, Akshadhaa Foundation welcomed corporate volunteers who supported students and trainees through engaging activities, skill development, and meaningful professional interactions. Volunteers from organizations including SAP, ANZ, Bosch, Hindustan Unilever, IKEA India, Outseer, and Taj Hotels engaged students through mock interviews, workplace readiness sessions, technology mentoring, creative activities, and soft skills training.

These interactions provided students with real-world exposure, strengthened their confidence, and encouraged employment aspirations. They also helped volunteers understand neurodiversity and the importance of inclusive workplaces.

Corporate volunteering remains an integral part of Akshadhaa Foundation's ecosystem, fostering meaningful collaboration between corporate partners and neurodiverse individuals while promoting inclusion.

Akshadhaa Foundation and the Journey of

Akshadhaa Assisted Living

During 2025–26, Akshadhaa Foundation collaborated on the Akshadhaa Assisted Living initiative, supporting the planning of the 5 acre campus for living, accommodation, engagement and therapies. Envisioned to nurture the physical, emotional, mental and spiritual well-being of individuals with special needs and their families, the initiative began with family consultations, background data collection, needs assessments and individual profiling. These inputs were the basis to suggest a roadmap for the initial planning phase and the architectural planning of indoor and outdoor spaces.

Proposed facilities at Akshadhaa Assisted Living include gardens, horticulture and learning spaces, vocational areas, a therapy pool, physiotherapy and physical fitness areas and sensory regulation spaces to support meaningful engagement and holistic well-being for the neurodiverse population. Going forward Akshadhaa Foundation will play the supportive advisory role to support the programs, train and sensitise the staff and work in tandem with the Akshadhaa Assisted Living team.

AUDIT REPORT

BALAJI & SIVASANKAR
Chartered Accountants

Form No.10B

[See Rule 17B]

Audit Report under section 12A(b) of the Income-tax Act, 1961 in the case of charitable or religious trusts or institutions

We have examined the Consolidated Balance Sheet of Akshadhaa Foundation, AADTA7639L as at 31 March 2026, and the Consolidated Income and Expenditure account for the year ended on that date which is in agreement with the books of accounts maintained by the said trust or institution.

We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of the audit. In our opinion, proper books of account have been kept by the head office and the branches of the above-named trust visited by us so far as appears from our examination of the books, and proper returns adequate for the purposes of audit have been received from the branches not visited by us, subject to the comments given below:

In our opinion and to the best of our information, and according to the information given to us the said accounts give a true and fair view:

(i) In the case of the Consolidated balance sheet of the state of affairs of the named trust as at 31 March, 2026 and

(ii) In the case of Consolidated Income and Expenditure account, the excess of Income over Expenditure of its accounting year ending on 31 March, 2026.

The Prescribed particulars are annexed hereto.

2025-2026

THANK YOU!

Every milestone, big or small, has been made possible by the collective efforts, helping hands, and thoughtful gestures of people like you.

As the Akshadhaa family, we are happy and grateful to celebrate each step forward with all of you. Your support and kindness continue to make our journey meaningful.

Thank you for being a part of our journey.
With heartfelt gratitude,
Team Akshadhaa Foundation
